Mary McCord is one of the architects of the Russia Hoax and was one of the lawyers suing A12 protesters.

A collaborator with both Roberta Kaplan & Adam Schiff.

Whatever Trump has done wrong, these people are worse.

They will attach to Biden like parasites.

Roger Stone and Jerome Corsi are being subpoenaed and threatened by the Robert Mueller "investigation" for the crime of using InfoWars to get **Trump** elected.

Free speech is a load of shit. The smaller potatoes (alt-right) get hit with **Roberta Kaplan** and SPLC lawfare, while the bigger fish like InfoWars get to face direct government repression.

The C'Ville lawfare charade seems to imply that if any Gab user posts something implying, suggesting self defense before an event, and if something happens (regardless if intentional) to a member of a protected class at said event then....

It's a grand conspiracy of Gabbers to start WW3. So all Gab user identities will have to be revealed. This is a level of Guilt by association which even i could not have imagined.

The **Roberta Kaplan** types should just confess: they want all **Trump** voters in a Gulag.

Roberta Kaplan is a pig without any sense of justice or morality. Justice to her is: what's good for the Jews. Guilty to her means, standing up to the Jews. Innocence means only allowing yourself to be a victim of the Jews.

Johnny Depp and Donald Trump should hire a private investigation team to find out what exactly happened to Elliot Kline's legally privileged property. Can a "feminist" who closely associated with Harvey Weinstein like Roberta Kaplan be trusted with materials this sensitive? In the small, they might just find the big.
